Dear Mr. Alvi and Mr. Duda:

Ebasco Services, Inc. (Ebasco) is pleased to submit this Final Work Plan for the Hooker/Ruco Site in Hicksville, Nassau County, New York.

The Final Work Plan presents the detailed scope of work and schedule for conducting the Remedial Investigation/Feasibility Study (RI/FS). The work elements outlined in this plan have been developed based on our current understanding of site conditions, directions provided by EPA and NYDEC during the scoping meeting held at EPA's New York City offices on March 29, 1988, and the final EPA comments received on July 11, 1988. EPA comments have been incorporated into the Final Work Plan.

As a result of modifications necessitated based on the comments received, revisions to Optional Form 60 will be required. The revised Optional Form 60 will be submitted under separate cover.
